Strange Market Activities in BOC Today

Dear Sirs,

The European Shareholders of Bougainville Copper are very much concerned about the strange market activities in BOC today.

Obviously an automated trading program was able to influence the daily trades permanently while orders from Europe could not get through.

These trades also may be related to the suspension of the American Deposit Receipt (ADR) program on January 22nd, 2010.

Nevertheless these market activities may have a fraudulent background as well. Therefore we would be grateful if you could clear up the situation as soon as possible.

Please find here the complete documentary on today's trades.

Sincerely,

Axel G. Sturm
President
